This paper cannot be placed in the public domain for copyright reasons and can be obtained directly from the author.

It will be available at the conference.

* Earlier versions of this paper were presented at a Workshop on Sports Economics, University of Groningen in March 2005, and the International Association of Sports Economics Annual Conference, University of Ottawa, June 2005. I am grateful for comments from participants at these events. I am also grateful for comments by Alistair Dawson and Mick Green on earlier drafts. The research was sponsored by Sport England. Data for this study was made available through the ESRC UK Data Archive, University of Essex, Wivenhoe Park, Colchester, Essex. CO4 3SQ. The results and interpretations of the data are solely the responsibility of the author. I would like to dedicate this paper, small tribute though it may be, to the memory of my dear friend and colleague Kevin Macken.
